FLOWER OF LIFE

The Flower of Life embodies perfection, creation and its completion. Its many meanings make it a symbol of balance, harmony, rebirth and protection. We chose it to dress our wine and represent our vision of a more sustainable World.

THE SUSTAINABLE ONE

Choosing GLÈ means reducing CO₂ emissions by 98% compared to the same amount of wine in a classic glass bottle; the remaining 2% emissions are abundantly offset by the CO₂ reduction implemented by nature in our vineyards.

The environmental impact corresponds to zero, the aluminum used to package GLÈ is infinitely recyclable, the cardboard box is first of all reusable, as it is very sturdy and elegant, and finally recyclable and compostable.
